Subject: Gold King Mine - EPA Working Assumptions Figure and pH history

Hi Steve,

Here is a draft figure you asked for, I have included the excavation efforts from last year in pictures. I can clean up the drawing once you have reviewed it (I can finish the sharpie lines, clean up pencil marks, and get a good scan of it for you instead of my home camera phone). I have also included a file Jan compiled of the pH history for the last few years at the Gold King. Let me know what else you need

Thanks,

Elliott
